HERE FOR OUR COMMUNITY

The YMCA of Greater Springfield is working to ensure you have access to the programs you need. Our programs are and have always been designed with the health and safety of everyone in mind. All camp staff are CPR and First Aid certified and each program has a trained full-time health administrator on duty all day. Our "on call" healthcare consultant is available ensure that our medical services are complete and wrap around. Our camps must and do comply with regulations of the Massachusetts Department of Public Health and be licensed by the local Board of Health.

WELL-BEING

Our goal this summer is to provide a safe, healthy space where children are free to let their imaginations run wild. We are taking steps to build in social and emotional support from qualified healthcare professionals to help deal with some of uncertainty and provide children with an environment your child can trust.

ENGAGEMENT

FUN and PLAY are how kids learn and camp would not be camp without it! Being creative is the key here; We've packed all the large group fun into small groups which means campers have a more personalized experience with their friends and counselors. Smaller groups in the pool and more swim time! Your child will benefit from highly trained individual counselors that will make each and every activity at camp a unique and fun experience like never before!
